

Lymph-Tone II

What?

Lymph-Tone II is a homeopathic drainage remedy designed to assist the lymphatic system in effectively draining toxins during the healing process.

Why?

I'm sure you've heard or read about the increasingly toxic environment we are living in. The amount of toxins we accumulate from our environment and the food we eat can far exceed our body's natural ability to excrete them. One of the pathways the body uses to eliminate toxins is the lymphatic system. When you think of your lymph system in action, you probably recall a gland being swollen under your arm or in your neck. What you may not have realized is that the lymphatic system is a network of vessels that runs from the top of your head to the tips of your toes. This amazing system works like a trash collector by using over 600 collection sites called "nodes" to collect and destroy harmful toxic materials. Unlike the circulatory system, which has the heart to pump blood through the body, the lymphatic system relies on the body's daily exercise and breathing to keep the lymphatic fluid flowing so it can remove toxins efficiently.

When the lymphatic system is compromised it can become overloaded with toxins, thus causing fatigue and lowered immune response. That's where **Lymph-Tone II** can help! This homeopathic drainage remedy is designed with a blend of ingredients to jumpstart the lymphatic system and assist the body in removing toxins at the cellular level. This, in turn, enhances the body's natural defenses and allows healing to begin.
